### Intrastate Mutual Aid

**Discussion:**
We have the newly constituted WAMAS Group reinstated.
Draft charter will be worked on this afternoon.
Locals are to use normal mutual aid channels and when exhausted move to EMD’s Logistics Center.
Consolidated deployment guide moving along.
Training is a must!

*Situation awareness:* The tribes are having trouble with mutual aid because the attorney general expects tribes to waive their sovereign immunity – this seems to be a deal breaker for mutual aid. Can state consider waiving sovereign immunity?

### Infrastructure Protection Subcommittee

We are going through a process to improve the Infrastructure Protection Plan. Our current plan was written in 2008. We will be working on the charter. The ICSP Committee is planning activities across critical infrastructure.
When the ICSP was rewritten in 2011 it included local jurisdictions, and when the committee restructures itself it reached out to local jurisdictions to fill in.
Reach out to other agencies and try not to stack the group within one committee.
What is the mission and how does it work within FEMA, local jurisdictions, and the state?

### EMC Action Requests

#### Regional Coordinators

**Discussion:**
Action on Tabled Motion:
The ad hoc members provide tremendous value and the regional coordinators all function differently.
The regional coordinators group needs to include something from the EMC guidelines/revised charter.

**Conclusions:**
Motion: Keep the motion tabled and keep the group engaged until we decide where we want to place them in the construct.

**Motion:** Table this discussion
Motion was seconded and approved

**Action items:** None

**Person responsible:**

**Deadline:**
### Sustainable Funding

**Jim Hall**

**Discussion:**

Do we need a task force on resiliency?

How do we identify our needs and our gaps?

There are various groups that will fight putting money into certain areas. What is enough for education? No one has ever told us how we define this. The operational and staffing areas keep overlapping each other. Part of the organizational response is who’s helping each other? Who’s getting things done? Where is the money going? Do we have certain goals we need to reach? How do we reach these goals?

We all have our perceptions on where this money goes, but we need to set some parameters around the money to figure out where it’s going.

---

### Intrastate Mutual Aid Procedures

**Robert Ezelle**

**Discussion:**

This was discussed earlier in the meeting.

---

### EMC Report to the Governor

**Jim Hall**

**Discussion:**

Nothing to report so far.

---

### EMC Guidelines

**Jim Hall**

**Discussion:**

We’ve added a few more items. How are we going to select the alternate? Does the alternate need to be appointed or does the primary choose their alternate?

The EMC should focus on the organization, and then the organization can recommend the person to represent – it’s about getting the right person and the right voice.

The State Fire Chief is not in the charter. They do represent something different than the State Fire Marshall – both represent state interest. The RCW states that the State Patrol and state and local fire are to be represented on the EMC.

---

### Conclusions:

**Motion:** Include local and state fire representation on the council.

Motion was seconded and approved

**Action items:**

Deadline:
**EMC Guidelines Cont.**

**Discussion:**
The EMC recommended that a program manager for EMD be a representative for the EMC because of a lack of resources and people.

We are looking for ideas for the appendices have not been completed.

**Conclusions:**
Dick Walter, Robert Ezelle, JoAnn Boggs, and Ron Averill volunteered for the Executive Committee.

The Executive Committee will take the action items and break them down. They will organize and distribute materials in advance of the meetings.

**Motion:** Appoint an informal Executive Committee made up of four volunteers for a year to see how it runs

Motion was seconded and approved

**Action items:**
Provide documentation from commissioners for the appendices

**EMC Strategic Goals**

**Discussion:**
What are our goals? How do we accomplish these goals?

- Having a robust and effective Intrastate Mutual Aid Compact
- Strategic planning process would start with the development of our goals. Then go through strengths, weaknesses, and goals to improve our processes (we could possibly complete this in two half-day meetings)
- Governor’s Report and improving it so it’s stable
- The THIRA is a good tool to use for our strategic plan. It would be extremely helpful to break down what is most important to us

**Goals:**
1. Sustainable funding
2. THIRA - Region 5 UASI and Region 6 have developed THIRA training and we would share this with people who are interested. The EMC would benefit from THIRA training
3. Strategic Planning
4. Intrastate Mutual Aid

**Conclusions:**
THIRA training for the next EMC

**Action items:**
Training for next EMC: Robert will take the lead and Amy Gillespie and Barb Graff will be asked to participate.

### Emergency Management Performance Grant (EMPG) Update

**Ziggy Dahl**

**Discussion:**
No report for last meeting. Part 3 has been reviewed by the attorney and we are expecting this to come out tomorrow. (March 7)

### Round Table (If times allows)

**EMC Members**

**Discussion:**
- The WSEMA Conference will be held at the Northern Quest Casino and Resort in Spokane the week of September 22nd. The theme is “Operation Working Together”.
- MG Daugherty will have a captain available to help take some of the workload off the table and help staff the EMC.
- FEMA will be conducting a Grant Effectiveness Case Study and Washington is the state they reached out to. Charma and the Homeland Security team are going to be showing them what we have going on in our state.
- Wanapum Dam has a decent size crack in it, and it is high on the dam safety list.

### Good of the Order

**Jim Hall**

**Discussion:**
- There was a lot of guard and active duty participation in the WSDA Exercise. There are a lot of things tied to the damaged dam that people don’t think about, such as, we now have archeological sites open for looting and we have a few small tribes in the area that aren’t nationally recognized and don’t have the money to fix the dam. And with the widespread looting, we don’t have enough law enforcement officers to support us.
- Seattle wants to thank the state partners for all their help with the Seahawks parade.

### Closing Remarks

**General Daugherty, Robert Ezelle, Jim Hall**

**Discussion:**
Move the EMC meeting to the eastern side of the state occasionally.

### Conclusions:

**Motion:** Move the September 4th meeting at Camp Murray to Monday, September 22nd in Spokane.

Motion was seconded and approved
