The background features a collage of images related to hazardous materials and emergency response. On the left, there are several red and yellow containers, possibly drums or tanks. In the center, there are various hazard diamonds: a blue one with a flame symbol, a yellow one with a skull and crossbones, and a red one with a flame and the number '3'. Below these, a diamond with the word 'CORROSIVE' and a '1' is visible. On the right, there are images of emergency responders in full gear, including helmets and oxygen tanks. The overall scene is slightly blurred, giving it a sense of activity and urgency.
