<ol style="list-style-type: none"> 1. Officers in the grade of Col (O-6) or Lt Col (O-5) eligible for promotion within 6 months 2. Must meet current physical health and the Air Force physical fitness standards 3. A degree leading to award of a medical AFSC (40C0A) 4. Must possess a current SECRET security clearance 5. PME must be complete within six months of appointment 			
SPECIALIZED EXPERIENCE			
This is not an entry-level position. Commands Air Force medical centers, units, or activities whose primary mission is to provide medical care and other health services. Serves as chief staff advisor to line commanders.			
AREA OF CONSIDERATION:			
Current members or those eligible for service in the ANG.			
WORKING CONDITIONS:			
Work will include but is not limited to, participation in deployed CBRN Task Force Medical Element and Homeland Response Force (HRF) exercises in field, both inside and outside, and or in austere conditions.			
SUMMARY OF DUTIES:			
<p>This position is located within the Medical Group of the 141st Air Refueling Wing, Fairchild Air Force Base, WA. Commands resources engaged in health care delivery and support. Works in Total Force partnership with the 92d Medical Group. Leads both a Guard Medical Unit responsible for ensuring wing medical readiness and a Medical Detachment responsible for providing CBRN capable medical disaster response capability. Analyzes mission and interpreting directives, orders, and instructions. Formulates plans, and establishes policies and procedures for delivering health services and assures health support for mission accomplishment. Implements programs such as total force training and disaster preparedness. Implements measures to identify, resolve problems, and eliminate conditions contributing to low morale. Directs and coordinates health services activities. Supervises and directs assigned resources to provide quality health services. Arranges quality civilian health care services when more cost effective than those available through the military facility or other federal resources. Ensures medical support to meet requirements placed on medical units when personnel are under operational control of the medical commander. Develops medical portion of base plans to provide medical support to wing and installation. Trains health care personnel. Advises wing commander on scope of available health care services, health care and services required by host-tenant agreements, health of personnel, and health protection requirements and measures. Conducts staff meetings, convenes, and appoints boards, councils, and committees to assist in managing assigned activities. Coordinates training, support, and use of medical units and activities. Coordinates with local health care agencies.</p>
