

I am the Guard

Civilian in Peace, Soldier in War . . . of security and honor, for three centuries I have been the custodian, I am the Guard.

I was with Washington in the dim forests, fought the wily warrior, and watched the dark night bow to the morning. At Concord's bridge, I fired the fateful shot heard 'round the world. I bled on Bunker Hill. My footprints marked the snows at Valley Forge. I pulled a muffled oar on the barge that bridged the icy Delaware. I stood with Washington on the sun-drenched heights of Yorktown. I saw the sword surrendered . . . I am the Guard. I pulled the trigger that loosed the long rifle's havoc at New Orleans. These things I knew—I was there! I saw both sides of the War between the States—I was there! The hill at San Juan felt the fury of my charge. The far plains and mountains of the Philippines echoed to my shout . . . On the Mexican border I stood . . . I am the Guard. The dark forest of the Argonne blazed with my barrage. Chateau Thierry crumbled to my cannonade. Under the arches of victory I marched in legion—I was there! I am the Guard. I bowed briefly on the grim Corregidor, then saw the light of liberation shine on the faces of my comrades. Through the jungle and on the beaches, I fought the enemy, beat, battered and broke him. I raised our banner to the serene air on Okinawa—I scrambled over Normandy's beaches—I was there! . . . I am the Guard. Across the 38th Parallel I made my stand. I flew MIG Alley—I was there! . . . I am the Guard.

Soldier in war, civilian in peace . . . I am the Guard.

I was at Johnstown, where the raging waters boomed down the valley. I cradled the crying child in my arms and saw the terror leave her eyes. I moved through smoke and flame at Texas City. The stricken knew the comfort of my skill. I dropped the food that fed the starving beast on the frozen fields of the west and through the towering drifts I ploughed to rescue the marooned. I have faced forward to the tornado, the typhoon, and the horror of the hurricane and flood—these things I know—I was there! . . . I am the Guard. I have brought a more abundant, a fuller, a finer life to our youth. Wherever a strong arm and valiant spirit must defend the Nation, in peace or war, wherever a child cries, or a woman weeps in time of disaster, there I stand . . . I am the Guard. For three centuries a soldier in war, a civilian in peace—of security and honor, I am the custodian, now and forever . . . I am the Guard.

ORGANIZATION AND MISSION

The Army and Air National Guard of the United States are integral parts and first line Reserve components of the Army of the United States and the United States Air Force. The National Guard of the States and Territories continues to exist and in time of emergency may be called or ordered into the Army of the United States and the United States Air Force through its National Guard of the United States status. All federally recognized units and elements of the Active National Guard and the personnel of the Inactive National Guard of the several states, the District of Columbia and Puerto Rico together constitute the National Guard of the United States.

The mission of the Army National Guard of the United States is to provide units of the Reserve components for the Army, adequately organized, trained and equipped, available for mobilization in the event of national emergency or war, in accordance with the deployment schedule, and capable of participating in combat operations in support of the Army's war plans. This mission may include the defense of critical areas of the United States against attack.

The mission of the Air National Guard of the United States is to provide trained units and qualified individuals to be available for Active Duty in the United States Air Force in time of war or national emergency and at such other times as the national security may require to meet the requirements of the United States Air Force in excess of those of the regular components thereof, during and after the period needed for procurement and training of additional trained units and qualified individuals to achieve the planned mobilization.

The mission of the National Guard of the several states is to provide sufficient organizations in each state so trained and equipped as to enable them to function efficiently at existing strength in the protection of life and property and the preservation of peace, order and public safety under competent orders of the State authorities.

Commander-in-Chief: The Governor is the Commander-in-Chief of the Washington National Guard.

The Adjutant General is responsible for the administration of National Guard affairs as prescribed in Section 38.12.020 of the Revised Code of Washington.

The Assistant Adjutant General, Army Division supervises and coordinates all matters pertaining to Army National Guard units, and also functions as Deputy Chief of Staff to the Adjutant General.

The Assistant Adjutant General, Air Division supervises and coordinates all matters pertaining to Air National Guard units.

Activation of the Army and Air Divisions: Effective 1 July 1961, under authority of Section 2, Chapter 210, Laws of the State of Washington, the Washington National Guard was separated into Army and Air Divisions.

Concurrent with the activation of the Air Division, and under authority of Section 3, Chapter 210, 1 July 61, the position of Assistant Adjutant General for Air was established within the office of the Adjutant General.

Federal Advisors: The United States Army and the United States Air Force detail officers and enlisted men to duty with the Washington National Guard as advisors for instructional purposes. These individuals are a part of the Army or Air Force command and are not subject to orders of State authorities. Their primary mission is to advise and assist in the training of National Guard units.

Army Advisors: The United States Army Advisor Group (NGUS), Washington, is headed by the Senior Army Advisor with station at Camp Murray. The Army Advisor Group is composed of twenty-three officer advisors, one warrant officer and thirty-two sergeant advisors, who are stationed in thirty-five localities throughout the State with units of the Washington National Guard.

Air Advisors: The Air Advisor Group is headed by the Senior Air Advisor with station at Spokane, Washington. This group is composed of 7 officer advisors and 8 sergeant advisors who are stationed in Spokane, Seattle and Bellingham with units of the Washington Air National Guard.

PERSONNEL

Personnel engaged in the various activities of the Military Department and the Washington National Guard paid from State funds are listed below:

<u>Title</u>	<u>Auth. Positions</u>
The Adjutant General	1
Ass't Adjutant General for Army	1
Ass't Adjutant General for Air	1
Staff and Clerical Employees	28
Plant Mechanics	3
Janitors and Caretakers	*40
Journeyman Carpenter	1
Journeyman Painter	1
Heating Plant Engineer	3
General Repairmen	2
Plant Manager	1
Steam Fireman	1
Gardener	1
Security Guards	2
Armory Handyman	1
Ass't Gardner	<u>1</u>
Total Authorized Positions - State	88

*Includes 14 part-time caretakers and 1 assistant gardener for approximately 3 months.

Personnel engaged in the various activities of the Military Department and the Washington National Guard paid from Federal funds are listed below:

<u>Title</u>	<u>No. of Positions</u>
USP&FO	58
Organizational	186
Field Maintenance	80
Air Defense	207
Army National Guard - Total	531
Air National Guard - Total	239
Grand Total - Federal	770

The Adjutant General is ordered to State Active Duty by the Governor in accordance with the provisions of the Military Code of Washington.

The full-time members of the military staff of the Adjutant General are National Guardsmen not on Active Duty and paid as civilian employees.

ARMY NATIONAL GUARD
Military Personnel Section

The Military Personnel Section is charged with the responsibility for the development and implementation of policies and procedures and of providing administrative and operational services in connection with the appointment or enlistment, assignment, separation and maintenance of records for all officer and enlisted personnel of the Washington Army National Guard.

Officer Personnel: Statistical data on the personnel actions handled during the reporting period by this subsection is indicated in the chart entitled "Officer Personnel Strength". Other important functions performed include:

Processing annual and special officer efficiency reports.

Processing reports of physical examinations.

Monitoring technical waivers granted by federal recognition boards.

Maintenance of 201-files and status cards for each officer.

Processing applications for voluntary recall to extended active duty.

Issue of identification cards to officers and key enlisted personnel.

Monitoring uniform allowance program.

Processing reports of vehicular accidents, claims and line of duty investigations.

Assisting in preparation and submission of requests for placement on AUS Retired List.

Furnishing files and up-to-date fact sheets to ROPA Selection Boards.

Enlisted Personnel: The chart entitled "Enlisted Personnel Strength" summarizes the major activities of this subsection. Other important functions performed include:

Maintenance of 201-files and status cards for each individual.

Processing end-of-the-month morning reports and pending cards.

Preparation of statements of service in response to requests received from units, individuals and other governmental agencies.

Processing certifications for priority induction.
Monitoring Ready Reserve obligations and retirement credits.

Strength: The personnel trends of the Washington Army National Guard have been as indicated in the following recapitulation. As will be seen, we realized a net loss of seventeen officers, a net gain of two warrant officers and a net gain of two-hundred eighty-six enlisted personnel. Our current total strength of 5,824 is the highest since the post WWII reorganization except for the strengths attained in 1956 (6,140), 1957 (6,426), and 1958 (6,038).

<u>Date</u>	<u>Officer</u>	<u>Warrant Officer</u>	<u>Enl</u>	<u>Aggregate</u>
1 July 60	544	109	4,900	5,553
30 June 61	531	109	5,050	5,690
30 June 62	527	111	5,186	5,824

To date we have lost one brigadier general, one colonel and one first lieutenant under the attritive provisions of the Reserve Officers Personnel Act of 1954 (commonly referred to as ROPA) by reason of age or length of service. This program has been in effect since 1 July 1960, but its impact will not be too severe until 1971 when officers commissioned during WWII will be phased out.

The second most important feature of the ROPA Act is the mandatory consideration of officers for promotion at designated intervals in their military careers. Our experience, under this provision, has been as shown in the following summary:

First Consideration by ROPA Selection Boards

	<u>Selected</u>	<u>Nonselected</u>	<u>Total</u>
Majors	8	9	17
Captains	17	27	44
First Lieutenants	<u>35</u>	<u>21</u>	<u>56</u>
Totals	60	57	117

Second consideration of those nonselected by first ROPA Board:**

	<u>Selected</u>	<u>Nonselected</u>	<u>Total</u>
Majors	3	1	4
Captains	9	6	15
First Lieutenants	6	2	8
Total	18	9	27

**Second nonselection is cause for termination of military service unless the officer has completed over 18 years but less than 20 years service which is creditable for retirement purposes. In the latter case, the officer is permitted to retain present status until completion of 20 years service and then is attrited.

The National Defense build-up in September 1961 initiated a swift chain of events which drastically affected the recruiting of enlisted personnel and the retention of same in the Washington Army National Guard. These included:

1. Suspension of input into the 6-months Active Duty Training Program for non-prior service enlistees from 1 September through 31 December 1961.
2. Enlistments of non-prior service applicants were restricted during the period 1 September through 31 December 1961 to men who had not attained their 20th birthday on date of enlistment. This was later amended to men who had not attained their 22nd birthday at time of enlistment.
3. Extension for one year of all ready reserve obligations and terms of enlistment which normally would have expired between 1 October 1961 and 30 June 1962.

Administrative Services: The sub-section provides the following services for the department: Mail, teletype, PBX, central files and reference library as well as the reproduction and distribution of all publications. Its workload has changed little from that experienced in prior bienniums.

Some progress is now in sight in our long delayed microfilming program. Through coordination with the university of Washington and the Washington State Library, the Indian and Civil War records mentioned in the 1958-1960 report are being processed for filming. Availability of space and equipment dictates future expansion of this program.

Our acting archivist has completed distribution of five volumes of the Official History of the Washington National Guard: (1) Heritage Period, (2) Indian Wars of 1855-56, (3) Washington Regiment in the Civil War, (4) The Phillipine Insurrection, and (5) World War I.

The sixth volume, World War II is now being mimeographed. Copies have been furnished to each unit of the Washington National Guard, western colleges and universities and each State department and our Congressmen.

CHANGES WITHIN RANK OF GENERAL OFFICERS

BrigGen Donald O. Spoon, Commanding General, 115th Artillery Brigade (AD), honorably discharged on 21 April 1961 by reason of physical disqualification; placed on Washington National Guard retired list.

BrigGen Orland G. Hunt, Commanding General, 41st Infantry Division Artillery, honorably discharged on 26 May 1961 by reason of attritive provisions of "ROPA" (completion 5 years in grade); placed on Washington National Guard retired list.

BrigGen Ralph S. Phelps, Commanding General, 41st Infantry Division, Federally recognized in present grade on 16 December 1960 at which time he was assigned as Assistant Division Commander. Assumed command of 41st Infantry Division on 5 June 1962 subsequent to death of MajGen Alfred E. Hintz, Oregon Army National Guard.

BrigGen Lyle E. Buchanan, Assistant Adjutant General, Washington Army National Guard, Federally recognized in present grade on 14 November 1961.

BrigGen Howard S. McGee, Commanding General, 41st Infantry Division Artillery, Federally recognized in present grade on 14 November 1961.

OPERATIONS AND TRAINING

During this reporting period 1,170 officers and enlisted men of the Washington Army National Guard were ordered to attend resident instruction at one of the Army area schools. Federal support of the school program has permitted personnel to take maximum advantage of the many courses offered by the various schools and training installations. Individuals ordered to school are placed in an Active Duty for Training status for the period of instruction and are entitled to similar benefits afforded active Army personnel.

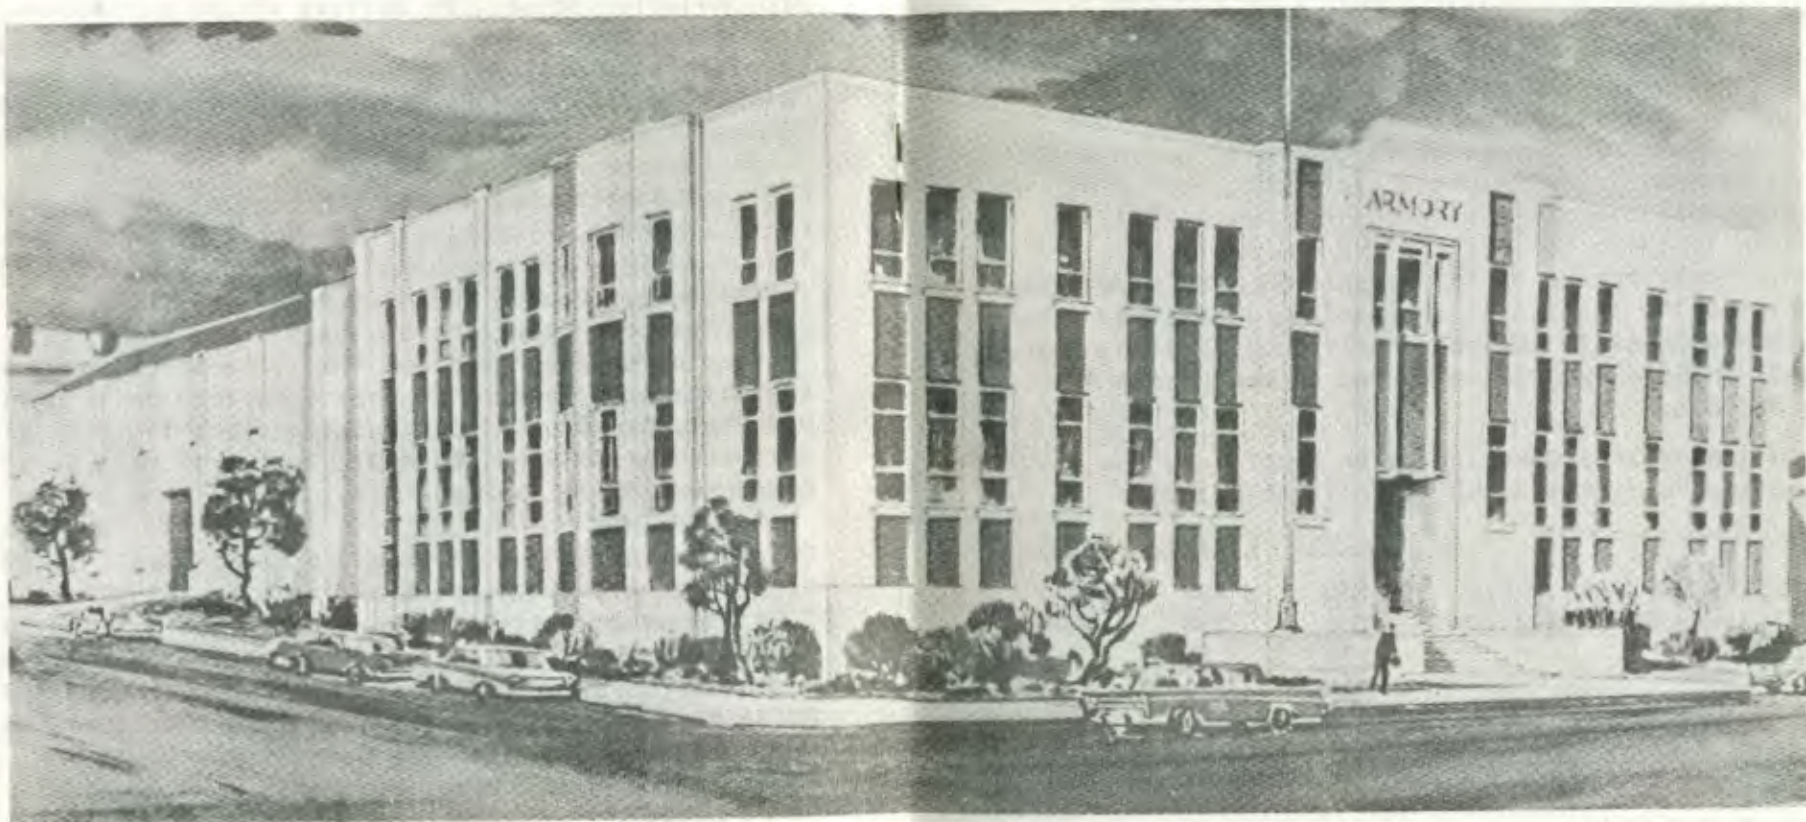

Courses available include military subjects in all skills, levels, and military specialities. Length of courses vary from the forty-two week Nike System Maintenance Course, four day CBR Monitoring Course and miscellaneous one or two day training exercises and conferences. The most frequently used courses include the Officer Orientation Courses for newly commissioned second lieutenants, Officer Career Courses for company and field grade officers, and the highly technical NIKE courses for personnel of the on-site missile units.

The largest single group of Washington Army National Guard personnel ordered to Active Duty for Training was composed of on-site technicians and observers when ninety-six officers and enlisted men participated in the annual one-week Air Defense Service Practice (SNAP) at the U.S. Army Air Defense School, Fort Bliss, Texas during Fiscal Year 1961, and one hundred eighty-two during Fiscal Year 1962.

Schools and training exercises utilized during the reporting period, together with actual attendance are listed on the following page.

Architect's drawing of Everett Armory rehabilitation

Six-Months Active Duty Training Program

The input of six-months trainees has continued to increase over previous years. Except for the four months period of input curtailment September-December 1961, the Washington Army National Guard has received sufficient quotas to meet current recruiting. For the most part, all assigned quotas have been utilized. The non-prior service individual continues to be the main source of recruitment for the Washington Army National Guard.

Few changes have occurred in the program since enactment of the Reserve Forces Act of 1955 (RFA). The training consists of 8-weeks of basic training conducted at the U. S. Army Training Center Infantry, Fort Ord, California; 6-14 weeks of advanced individual training at a branch training center; and 0-6 weeks of basic unit training at branch training centers. The remainder of the six months is used in processing, travel and leave. Where possible Advanced Individual Training and Basic Unit Training may be conducted at one of the Army Service Schools.

The following breakdown indicates input into the six-months Active Duty Program by major organizations:

	<u>FY 1961</u>	<u>FY 1962</u>	<u>Total</u>
41st Infantry Division Units	562	488	1,051
115th Artillery Brigade Units	268	230	498
Separate Units	<u>76</u>	<u>60</u>	<u>136</u>
Totals	906	779	1,685

Army Extension Course Program

The Army Extension Course Program provides Army service school instruction to Army National Guard officers and enlisted men through correspondence (nonresident) study. All texts, manuals and necessary equipment are furnished the student on a loan basis at no cost to the individual.

In addition to the nonresident phase, recent advances in the program now permit students of the officer career and certain other courses to complete from one to two phases at the service school (resident). If the officer chooses, all phases may be completed by extension subcourses.

For those individuals who can not attend the complete resident course at his branch service school, the extension course program provides an excellent means of becoming branch qualified for promotion and proficiency in his military occupational speciality.

Enrollment in the Extension Course Program in the Washington National Guard, as of the closing day of this report, numbered two hundred ninety-three officers and six hundred ten enlisted personnel for a total of nine hundred three current enrollments.

A breakdown by school is indicated as follows:

	<u>Officer</u>	<u>Enl Men</u>	<u>Total</u>
Pending Service School Approval	33	85	118

Mobilization for Active Federal Service

By direction of the President of the United States and pursuant to the authority contained in Public Law 87-117, the 1041st Transportation Company was alerted on 1 September 1961 and entered into Active Federal Service at Camp Murray, Tacoma, Washington on 1 October 1961. This unit departed from home station on 7 October 1961 for the mobilization station Fort Lewis, Washington.

Annual Active Duty for Training

All units of the Washington National Guard conducted 15-day Annual Active Duty for Training in 1961. A recapitulation of this training is as follows:

<u>Unit</u>	<u>Training Site</u>	<u>Dates</u>
41st Quartermaster Co	Fort Lewis	9-23 Jun 61
41st Infantry Division	Fort Lewis	10-24 Jun 61
H&H Det, 144th Trans Bn	Coronado, Calif	2-16 Jul 61
506th Trans Co	Fort Lewis	10-24 Jun 61
783d Trans Co	Fort Lewis	10-24 Jun 61
881st Trans Co	Ranger Creek training area	10-24 Jun 61
1040th Trans Co	Coronado, Calif	2-16 Jul 61
1041st Trans Co	Camp Murray	10-24 Jun 61
105th Eng Co (C)	Cp Rilea, Ore	7-20 Jul 61
H&H Det ARNG (-)	Camp Murray	12-24 Jun 61
Sel Ser Section, H&H Det	Tongue Pt, Ore	15-29 Jul 61
115th Arty Bde AD Units	Yakima Firing Center	10-24 Jun 61
2d Msl Bn, 205th Arty	Seattle Def Area	1-15 Jul 61
3d Msl Bn, 205th Arty	Seattle Def Area	1-15 Jul 61
Wash Military Academy	Camp Murray	10-24 Jun 61
122 PIO Detachment	Camp Murray	10-24 Jun 61

The following units had completed the 1962 Annual Active Duty for Training requirements as of 30 June 1962:

<u>Unit</u>	<u>Training Site</u>	<u>Dates</u>
41st Quartermaster Co		15-29 Jun 62
41st Inf Division (-)		16-30 Jun 62
1st Med Tk Bn, 303d Armor-	Yakima Fire Cent.	9-23 Jun 62
881st Transportation Co -	Camp Murray	9-23 Jun 62
Hq&Hq Det, Wash ARNG -	Camp Murray	16-30 Jun 62
115th Artillery Bde (AD)-	Yakima Fire Cent.	2-16 Jun 62
1st How Bn, 205th Arty -	Yakima Fire Cent.	2-16 Jun 62
4th How Bn, 205th Arty -	Yakima Fire Cent.	2-16 Jun 62
2d Msl Bn, 205th Arty -	Seattle Def Area	*2-30 Jun 62
3d Msl Bn, 205th Arty -	Seattle Def Area	*2-30 Jun 62

*Each Battery completed a two-week period of training within the dates specified.

Annual General Inspections

Results of the 1961-1962 Annual General Inspections by representatives of Headquarters, Sixth U.S. Army covering all administrative, clothing and equipment records, and training proficiency, are as follows:

<u>Year</u>	<u>Superior</u>	<u>Excellent</u>	<u>Satisfactory</u>	<u>Unsatisfactory</u>
1961	6	50	16	2
1962	8	53	12	1

Security Clearance Program

With continued emphasis placed on the need for security, commanders of Washington Army National Guard units submit an average of thirty-two requests for Secret clearances and fifty-three requests for Confidential clearances each month. At the close of Fiscal Year 1962, 3,484 officers, enlisted men and civilian employees have clearances for access to classified information and material.

Although a record is not maintained on clearance cancellations, it is estimated between twenty to thirty clearances are cancelled each month due to upgrading in higher degree, separation from Washington Army National Guard status, or for administrative reasons.

WASHINGTON MILITARY ACADEMY

Reorganization: The reorganization authority number 42-62 dated 11 April 1962 from the National Guard Bureau and implemented by general order number 7, Washington Military Department, dated 25 April 1962, changed the troop allotment of the State of Washington effective 1 May 1962 as indicated below:

Addition

1st Howitzer Battalion (105mm)(SP)
205th Artillery (TOE 6-315D)

4th Howitzer Battalion (105mm)(SP)
205th Artillery (TOE 6-315D)

Deletion

1st Gun Battalion (90mm) 205th Artillery (TOE 44-150)

4th Gun Battalion (90mm) 205th Artillery (TOE 44-15D)

415th Ordnance Detachment (IFC Rep) (Team CC)

The units of the 1st and 4th Howitzer Battalions, 205th Artillery were designated as priority II and are stationed as follows:

<u>Unit</u>	<u>Station</u>
HQB, 1st How Bn, 205th Artillery	Yakima
Btry A, 1st How Bn, 205th Artillery	Ephrata
Btry B, 1st How Bn, 205th Artillery	Pasco
Btry C, 1st How Bn(105mm)(SP), 205th Arty	Toppenish
Ser Btry, 1st How Bn(105mm)(SP) " "	Yakima
HQB, 4th How Bn (105mm)(SP) " "	Bellingham
Btry A, 4th How Bn(105mm)(SP) " "	Seattle
Btry B, 4th How Bn(105mm)(SP) " "	Puyallup
Btry C, 4th How Bn(105mm)(SP) " "	Anacortes
Ser Btry, 4th How Bn(105mm)(SP) " "	Bellingham

The Washington Military Academy was established 15 February 1957 as the first Resident Officer Candidate School for the Washington Army National Guard. The Academy was organized as part of a National Guard Bureau plan to eliminate extension course training for future officers and replace it with an aggressive Resident Training Program in each State. The program of instruction consists of approximately 450 hours of training conducted during two fifteen days Annual Active Duty for Training periods, and seven two-day weekend assemblies spaced throughout the year. The course is divided between academic subjects and leadership training. Strong emphasis is placed on the leadership phase to develop this most essential quality in future officers. Lack of this leadership training and evaluation was the most serious defect in the former pre-commission extension course programs. The new course requires nearly one year to complete, with a new class starting each August and graduating the following July.

Ninety-seven outstanding young guardsmen graduated from the Academy prior to the start of this biennium. An additional seventy-two new second lieutenants were graduated from classes 4 and 5 during this reporting period, to bring the school output to 169 thus far.

Class number 6 entered training in August 1962 with 65 candidates. Sixty-four of the original group are still enrolled following the first Active Duty Training Period, and it is estimated that a minimum of fifty will be commissioned upon graduation next year.

This program represents a new achievement in the annals of the Washington National Guard. For the first time the State is training and producing new officers through its own Resident Officer Candidate School. The Academy is considered a valued asset, and plans now call for a continuous output of fifty to seventy-five new Guard officers each year.

AIR DEFENSE ON-SITE PROGRAM

Throughout the biennium the 2d and 3d Missile Battalions, 205th Artillery have successfully participated in the On-Site Program, each manning two Nike-Ajax Missile Sites in the Seattle area as part of the Air Defense System of the Continental United States.

The 2d Missile Battalion, 205th Artillery has manned sites at Kenmore and Cougar Mountain with batteries A and B respectively. These two batteries fired one Annual Practice during the biennium and attained the following scores: Battery A, 76.1%; Battery B, 89.1%, for a Battalion average of 82.6%.

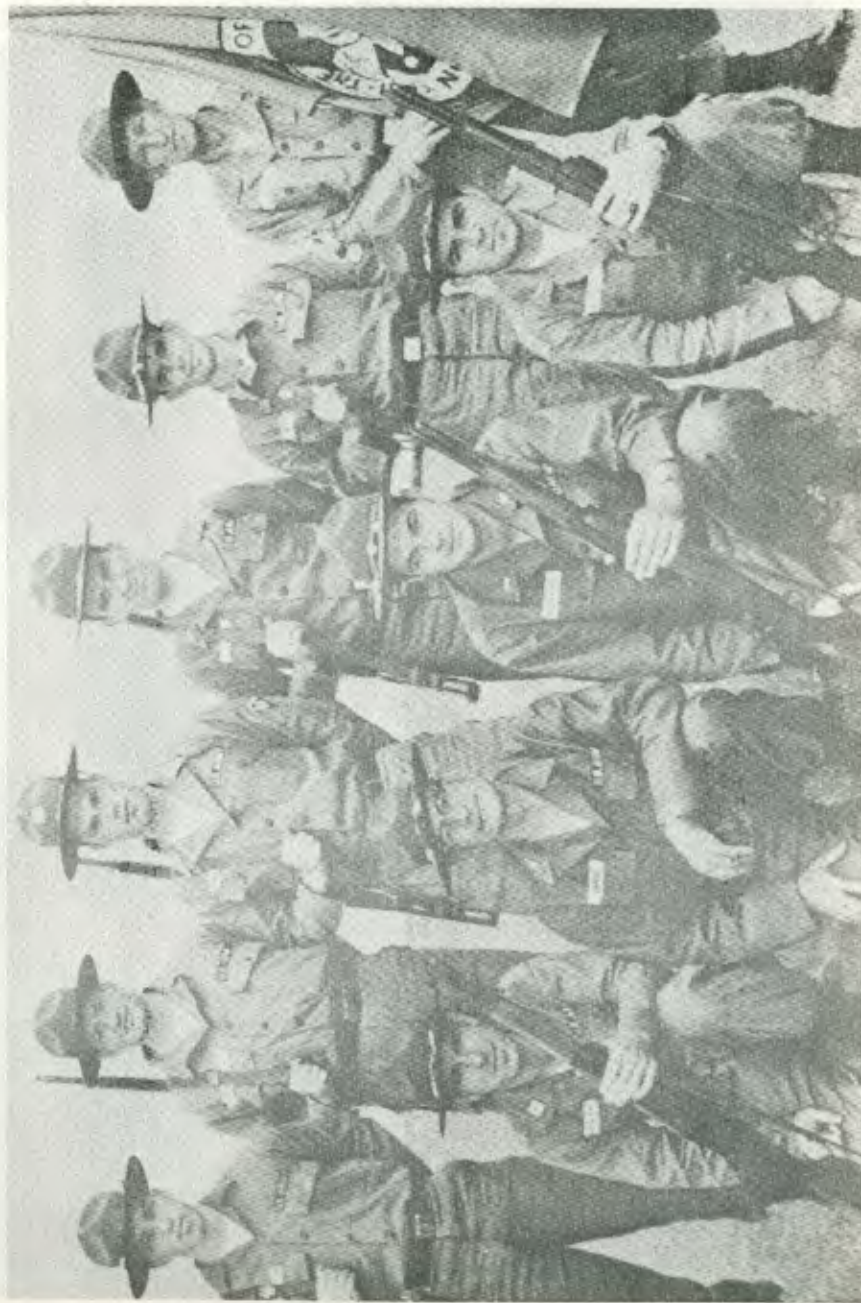

The 3d Missile Battalion, 205th Artillery has manned sites at Midway and Olalla with batteries B and C respectively. These two batteries each fired two Annual Practices during the biennium, attaining scores as follows:

Battery B: 94.9%	Battery B: 92.0%
Battery C: 90.3%	Battery C: 99.5%
Btn. Avg : 92.6%	Btn. Avg : 95.7%

The battalion average of 95.7% attained by the 3d Missile Battalion earned for the organization the highest USARADCOM Commander's Missile Firing Trophy awarded to either Active Army or National Guard battalions with three or less batteries during Fiscal Year 1962.

The 3d Missile Battalion, 205th Artillery was also awarded the USARADCOM Commander's Trophy for scoring highest among Army National Guard units manning active defense sites in evaluations which reflect all around combat readiness and effectiveness of units during Fiscal Year 1962.

The Eisenhower and City of Tacoma trophies were won by units of the 2d Missile Battalion, 205th Artillery during Fiscal Year 1962.

Team - 1962

Camp Perry

The aggregate strength of the 2d Missile Battalion increased from 377 to 492 and that of the 3d Missile Battalion increased from 444 to 475 during the biennium.

National Rifle Matches

The Washington National Guard entered a ten-man team in the National Rifle Matches during both years of the biennium. Each year the team was selected by means of an elimination match at Fort Lewis shortly before departure to Camp Perry, Ohio.

During the 1960 National Matches, a six-man team consisting of Lt Billy M. Rhyan, 2d Lt Aiyer R. Hudlow, SSgt Wilbert R. Krones, SSgt Eugene A. Weir, SP4 James P. Hayes and SP4 Roger D. Lovitt placed first unclassified Reserve in both the Enlisted Men's Trophy and Rumbold Trophy Team Matches. The team was captained by Colonel Paul C. James and coached by 2d Lt Vincent D. Aguirre.

Another six-man team consisting of 2d Lt Vincent D. Aguirre, 2d Lt Charles C. Gregg, SSgt Wilbert R. Krones, SSgt Eugene A. Weir, SP5 John E. Ogden and SP4 Roger D. Lovitt, also captained by Colonel Paul C. James and coached by 2d Lt Vincent D. Aguirre, placed eighteenth among forty-four National Guard teams in the National Trophy Team Match.

During the 1961 National Matches, the team consisting of Captain John R. Easley, 1st Lt Billy M. Rhyan, 1st Lt Thomas M. Burgess, 2d Lt Charles C. Gregg, SSgt Wilbert R. Krones and SP6 John E. Ogden, placed ninth among forty-six National Guard teams in the National Trophy Team Match. This team was captained by Colonel Paul C. James and coached by 1Sgt George A. Rahn. SP5 James F. Wallace and SP4 John W. McGee were alternates.

Camp Perry Pistol Team - 1962

INSTALLATIONS SECTION

The installations section was organized during the biennial period by consolidating the maintenance, construction and engineering section and the quartermaster section. In merging the two sections, it placed the responsibility for all phases of facility support in one section. This section is responsible for new construction, maintenance and operation of the facilities, and State property utilized by the Washington National Guard. There are 44 stations located throughout the State with more than 150 buildings and their related ancillary facilities. During the past biennial period, over a million dollars has been spent in new construction, major improvements and maintenance of facilities. Over one-half of the funding was secured from the National Guard Bureau.

Again, during the biennial period, the majority of the funds were received for new construction and major improvements. Funds for normal maintenance were very limited. The existing condition of most facilities reflects the continued lack of maintenance support. A progressive maintenance program is being presented in the 1963-1965 operations budget. The program of \$240,000.00 for major maintenance projects over the next 6 years, with an amount of approximately \$50,000.00 per biennium for a preventive maintenance program. With this type of support, all NG facilities could be brought up to standards required for a successful and economical maintenance program. The majority of the state equipment in use at the present time was procured prior to WWII or received from the Selective Service System at the close of the War. Much of this equipment will require replacement within a short period of time. To relieve some of the deficiencies, new armory and major rehabilitation projects are programmed with all new equipment at the completion of the construction contracts. Funds are secured from the Capital Program Budget. During this reporting period, \$43,167.00 was expended for procurement of new equipment. A replacement program is being developed to schedule procurement over the next several bienniums. The following project lists cover the work completed or contracted during this period:

Colville Armory	\$100,180.00 - State
	128,512.50 - Federal
Anacortes Armory	100,000.00 - State - (est)
	143,000.00 - Federal - (est)

Nike-Hercules - One second after "launch"

With the advent of the World's Fair in Seattle, the Armory was vacated to allow use of the building by Century 21 Exposition. A portion of the U.S. Naval Supply Depot (Pier 91), Seattle, was rehabilitated and modified for use by the National Guard units. The work was accomplished by Century 21 at an expenditure of approximately \$200,000.00. Century 21 also constructed an organizational maintenance shop at our administrative storage area at Fort Lawton. The shop is of permanent construction and cost \$25,734.80. In addition, Century 21 reimburses the Military Department for the loss of revenue of the Armory and for the added costs of operation of Pier 91. The temporary facilities have been very adequate and in many ways more suitable for training requirements of the units.

At the present time, the major rehabilitation project for the Everett Armory has been designed. \$235,200.00 is available to completely modernize the building. This major work will add many years to the structure's life, as well as give greater utilization to the space available.

A major federal project for a new Army Aviation Maintenance facility is in the Budget Program and preliminary layout stage. The existing hangar at Gray Field is scheduled to be removed to allow for new Active Army construction. This project will provide a new hangar, shops, parking areas, taxiways and operations space in accordance with the NGB criteria. Preliminary estimate for the project is \$450,000.00. The project is being placed in the 1964 FY Budget. Construction could be started in 1963.

The first joint utilization facility scheduled by the State has been approved by the Department of Defense. The facility will be constructed for use of the Bellingham units of the National Guard and the Army Reserve. Joint utilization is required for federal support of National Guard facilities where other Reserve components require facilities at the same location. Federal support is received on the basis of use of the facility. National Guard support is based on the normal 75%-25% for basic construction. 100% Federal support is received for the Army Reserve. Costs of operation and maintenance are pro-rated on the percentage of use of the facility. Federal funds in the amount of \$184,000.00 for NG and \$164,000.00 for Army Reserve are contained in the 63 FY Appropriation Act. Authority to proceed with the State-Federal Agreements and design of the training center has been received. Joint utilization is basically required to obtain maximum utilization of capital investments.

THE STATE MAINTENANCE SECTION

The State Maintenance Section under the direction of the State Maintenance Officer operates repair and maintenance facilities for all Federal equipment issued to the Washington National Guard. These facilities and their locations are as follows:

- (a) Combined Field Maintenance Shop - Camp Murray
- (b) Field Training Equip Concentration Site -
Camp Murray
- (c) Army Aviation Section - Gray Field, Fort Lewis

The following agencies are under the direction of the State Maintenance Officer for technical supervision only. (One organizational maintenance shop is located at each of the listed stations except as otherwise indicated).

Camp Murray (3)	Centralia	Snohomish
Seattle (3)	Yakima	Bellingham
Olympia	Walla Walla	Midway
Vancouver	Spokane	Cougar Mountain
Aberdeen	Port Orchard	Tacoma

The equipment maintained includes over 1,800 wheeled and tracked vehicles of all types ranging from jeeps to tanks. Approximately 135 pieces of artillery from 76mm guns mounted on M 41 light tanks to 8-inch towed Howitzers. There are also approximately 10,000 small arms of all types, 2,500 pieces of signal equipment and over 1,500 fire control instruments. Numerous miscellaneous items, such as tarpaulins for military vehicles and field ranges, are also repaired by the maintenance section. This section is also responsible for maintaining a fleet of marine equipment consisting of a one-hundred foot tug, a sixty-five foot passenger and cargo vessel and two-hundred ten foot floating craft depot maintenance barge.

During the period of this report the following items were processed through the Combined Field Maintenance Shop at Camp Murray:

Vehicles - - - - -	3,675
Artillery- - - - -	944
Small Arms - - - - -	6,092
Instrument & Fire Control- - - - -	992
Signal - - - - -	3,072
Engineer - - - - -	264
Quartermaster- - - - -	1,340
Miscellaneous- - - - -	22,964

These repairs ranged from minor projects to complete rebuild of equipment evacuated to the Combined Field Maintenance Shop.

Contact teams from the Combined Field Maintenance Shop visit all units of the Washington National Guard at least once a year to inspect equipment and arrange for necessary repairs. The Combined Field Maintenance Shop also provides maintenance specialists on an on-call basis to all units throughout the State for the purpose of repairing equipment. This system of sending contact teams to the unit is very often more economical than evacuating equipment to Camp Murray for repairs. Command Maintenance Inspections, previously performed by a team from Headquarters Sixth U.S. Army are now the responsibility of the Army National Guard. These Command Maintenance Inspections are accomplished by a team from the Combined Field Maintenance Shop. This important function gives a good indication of the combat readiness of all military equipment in the hands of the National Guard units.

The field training equipment concentration sites, located at Camp Murray, receives and maintains heavy items of equipment such as special purpose vehicles, graders, tractors, tanks and artillery material of all types. The equipment maintained at this site is usually items that are not required for use at the unit Armory during the training year, but are required for Annual Active Duty.

The Army Aviation Section at Gray Field, Fort Lewis, Washington consists of 9 light aircraft and 7 helicopters at the present time. These aircraft are also maintained by the State Maintenance Section. A supervisor, who is a rated pilot, and airplane maintenance technicians are on duty at this installation.

The organizational maintenance shops located throughout the State perform all organizational maintenance beyond the capabilities of the using unit. These shops are designed to service the equipment of a battalion sized unit. They have the responsibility of maintaining administrative storage compound for unit vehicles and material not required for training. The technicians who operate these shops are also used to evacuate equipment to the Combined Field Maintenance Shop when the maintenance requirement is beyond their capability.

Maintenance of National Guard equipment is a full time project with the ultimate goal of having all equipment in a safe operating condition at all times. Equipment is scheduled for repair over a full year. All equipment is maintained in accordance with directives published by the Departments of the Army and the Air Force.

UNITED STATES PROPERTY AND FISCAL OFFICE

The United States Property and Fiscal Officer is assigned the responsibility of G-4 on the staff of the Adjutant General with the mission to procure, store and distribute to the Washington National Guard such equipment and supplies as are authorized by the Departments of the Army and Air Force, and for which necessary federal funds are provided. Further, he is responsible for obligating, accounting, reporting and financial planning and administrative control of all federally appropriated funds allotted to the State of Washington for National Guard use. In accomplishing the above mission, he functions as accountable officer to the Federal Government for all federal property, as Class B Agent Officer to U.S. Army Finance and Accounting Officer for payment of troops, as Transportation Officer and as Purchasing and Contracting Officer. In order to accomplish the above mission, federally paid employees are provided. Also, federally paid employees are provided for the State Maintenance Officer, to individual units of the Army National Guard, for the Air National Guard, and for Air Defense Battalions. As of 30 June 1962, there were 770 employees on the payroll.

Other federal funds are furnished for support of National Guard units within the State. These are as follows:

	<u>Army</u>	<u>Sixth Army</u>	<u>Air</u>
Medical Care	9,978.09		12,109.75
Field Training	1,161,065.00		483,898.23
Schools, Incl tvl & hospital pay	763,299.49	7,075.49	259,943.54
Subsistence	237,453.67		74,565.28
Indiv Clothing	223,453.67		84,868.19
Organizational Equip	294,598.80		
Petroleum Products	217,090.33		
Operating Supplies & Civ Travel	395,523.75	32,892.74	432,689.08
Technicians Pay	6,364,717.32		2,676,264.15
Repair & Utilities	134,384.00		180,166.72
On-Site Expense	150,943.56		
*Construction	<u>245,020.56</u>	<u> </u>	<u>461,650.92</u>
	\$10,197,528.21	\$39,968.23	4,666,155.86
Total			14,903,652.30

*Includes final payments on projects completed in previous biennium.

This represents an increase of \$841,443.66 over the past reporting period of 1 July 58 - 30 June 60.

The United States Property & Fiscal Officer does not account for Federal funds expended for armory drill periods for National Guard troops or for the pay and allowances for Army and Air Force officers and enlisted men assigned to the Guard as advisors. Although exact figures are not available, in order to present a realistic picture of the Federal funds expended to support the Washington National Guard, the following figures based on reports of armory drill pay submitted by units of the Washington National Guard, and an estimate of the pay of Federal advisors during the period of this report, are submitted as follows:

Armory Drill Pay	\$ 3,207,216.88
Advisors' Pay (estimated)	1,240,500.00
Federal Funds accounted for by the USP&FO	<u>14,903,652.30</u>
Total Federal Funds	\$19,351,369.18

At the close of the previous reporting period, the supply section of the USP&FO maintained approximately 10,000 stock cards. At the time of the last report it was expected that this amount would increase. However, it has decreased to approximately 5,300 cards. This is not due to decreased activity, but has been caused by a change in supply procedures. Items which do not meet pre-established demand criteria are no longer stocked, but are procured on a "when required" basis. These are called "fringe" items, and stock cards are not maintained. At present approximately 70% of all procurement actions are fringe type.

During the period of this report, excess property in the amount of \$7,702,548.33 has been reported for disposition. The principal reason for the increased amount was due to the reorganization of two 90mm Anti-Aircraft Battalions to Field Artillery.

The USPFO is charged with the responsibility of auditing every supply account at least once annually and upon change of command. During the period of this report, approximately 250 audits have been performed. This represents an increase of approximately 50 over the previous reporting period and was caused by increased change of command audits. Each audit consists of a thorough physical inventory of all property issued to that account and a complete property settlement. In addition the USPFO is required to inventory all warehouse stocks once a year and to make the necessary property settlements. This is done by means of the "cycle" method which eliminates the necessity of completely suspending operations during inventory.

Federal equipment issued the Washington Air National Guard is valued at approximately \$35,000,000.00. Army National Guard federal equipment in the State is valued at approximately \$33,000,000.00.

During the period of this report a nation wide redistribution of physical stocks in the National Guard inventory took place. Due to the fact that the Washington Army National Guard was in possession of certain types of property in excess of established authorized allowances, this redistribution resulted in the loss of considerable property. A recapitulation of losses and gains are as follows:

Gain: 16 Trucks Loss: 76 Trailers, 190 Trucks

Again in December of 1961 the Washington National Guard was directed to ship to the Active Army the equipment listed below. This was necessary to meet requirements of the mobilization of Reserve Forces in the fall of 1961.

56 each - Trailers
119 each - Trucks

As of this date 5 trucks have been replaced. This has resulted in a net loss of 420 pieces of major equipment. It has resulted also in a severe logistical problem which has necessitated a complete review of all vehicular assets and a redistribution within the State. Many other smaller items have also been withdrawn.

FINANCE SECTION

During the period of this report a total of \$2,383,897.69 in State funds was expended in support of the organized militia of Washington. The above amount does not include \$83,075.87 (Federal funds) paid direct by the Federal Government in support of the Armory construction program. Forty-four installations are occupied by units and activities of the Washington National Guard including the on-site positions which are being occupied by National Guard Nike Battalions. Thirty of the facilities are state owned, and the remainder are leased, rented, or occupied under licenses or use permits from the Federal Government.

The Departments of the Army and the Air Force assist the State of Washington in maintaining certain Army and Air National Guard installations. Service contracts have been arranged whereby the Federal Government reimburses this Department on a 75%-25% basis. 75% of the costs of maintenance, repair and operation of these facilities are paid by the Federal Government, and this Department assumes the 25% portion. These contracts cover installations at Bellingham, Camp Murray, Seattle, Spokane, Gray Field, Vancouver, and certain facilities at Port Orchard, Centralia, Olympia, Seattle, Walla Walla, Yakima and Felts Field in Spokane. During the period of this report the Department has been reimbursed a total of \$198,243.69. Local funds were reimbursed in the amount of \$191,592.50 and appropriations in the amount of \$6,651.19.

There is set forth below a summary of disbursements from all appropriations and allotments in effect during the period of the report, including local funds.

This statement covers overlapping portions of two biennial periods. Local funds are derived from armory rentals.

SUMMARY OF MAJOR DISBURSEMENTS

Title	Appropriations	Local Funds	Totals
Salaries & Wages	654,109.62	88,391.83	742,501.45

OPERATIONS AND TRAINING (AIR)

The following Air National Guard units were activated on 1 July 1960:

Headquarters 141st Fighter Group (AD) Spokane
141st Air Base Squadron
141st Materiel Squadron
141st Consolidated Acft Maint Squadron
141st USAF Dispensary

Units reorganized and/or redesignated:

Headquarters 142d Air Defense Wing was reorganized effective 1 July 1960 with no change in station and with change in personnel authorizations.

116th Fighter Interceptor Squadron was reorganized effective 1 July 1960 with no change in station and with change in personnel authorizations.

Headquarters Washington Air National Guard was reorganized effective 1 August 1960 with no change in station or minimum maintenance strength and with change in personnel authorizations.

The following units were reorganized and/or redesignated effective 1 October 1960 with no change in station and with change in personnel authorizations:

<u>Previous designation</u>	<u>New designation</u>
Hq 252d Communications Group	Hq 252d Comm Group (Mobile)
262d Communications Squadron (Operations)	262d Communications Squadron (Tributary Teams)
143d Aircraft Control and Warning Squadron	143d Communications Squadron (Tributary Teams)
215th GEEIA Squadron	215th GEEIA Squadron

Headquarters Washington Air National Guard was again reorganized effective 1 March 1961 with no change in station or minimum maintenance strength and with change in personnel authorizations.

242d AACS Squadron (Mobile) was reorganized and redesignated 242d Mobile Communications Squadron effective 1 July 1961 with no change in station and with change in personnel authorizations.

Headquarters 142d Air Defense Wing and 141st Fighter Group (AD) including all subordinate units were reorganized effective 7 July 1961 with no change in station and with changes in personnel authorizations.

215th GEEIA Squadron was reorganized effective 15 June 1962 with no change in station and with change in personnel authorizations.

Change of Station

Headquarters 252d Communications Group (Mobile) and 242d Mobile Communications Squadron were relocated from Spokane International Airport to the F-37 NIKE site, Four Lakes, Washington effective 9 March 1962.

Annual Field Training

Headquarters 252d Communications Group (Mobile) -
Hamilton Air Force Base, Calif - 13-27 August 1960

262d Communications Squadron (Operations) -
Hamilton Air Force Base, Calif - 13-27 August 1960

Headquarters 142d Air Defense Wing
Geiger Field, Washington - 20 August-3 September 1960

Headquarters 141st Fighter Group (AD)
Geiger Field, Washington - 20 August-3 September 1960

116th Fighter Interceptor Squadron
141st Air Base Squadron
141st Consolidated Aircraft Maintenance Squadron
141st Materiel Squadron
141st USAF Dispensary
116th Weather Flight
560th AF Band

Headquarters Washington Air National Guard
Camp Murray, Washington - 20 August-3 September 1960
143d AC&W Squadron

Headquarters Washington Air National Guard
Camp Murray, Washington - 10-24 June 1961

Headquarters 142d Air Defense Wing
Spokane International Airport - 10-24 June 1961

Annual Field Training - Continued

Headquarters 141st Fighter Group (AD)
 116th Fighter Intcp Squadron
 141st Air Base Squadron
 141st Consolidated Aircraft Maintenance Squadron
 141st Materiel Squadron
 141st USAF Dispensary
 116th Weather Flight
 560th Air Force Band
 242d AACS Squadron (MBL)
 Spokane International Airport - 10-24 June 1961

Headquarters 252nd Communications Group (Mbl)
 262d Communications Squadron (TT)
 Camp Rilea, Oregon - 10-24 June 1961

143rd Communications Squadron (TT)
 Seattle, Washington - 10-24 June 1961

215 GEEIA Squadron
 Hill Air Force Base, Utah - 10-24 June 1961

During the period 1 July 61 through 30 June 62, Headquarters, Washington Air National Guard, Headquarters 142d Air Defense Wing and Headquarters 141st Fighter Group (AD) including all subordinate units attended Annual Field Training under the Year Around Plan (Texas Plan) which authorizes participation in increments of one to fifteen days throughout the Fiscal Year at home station.

Security Clearance Program

Approximately 250 applications were processed to completion for Security Clearances for access to classified material including Secret, Top Secret and Cryptographic.

Resident Instruction

A total of 430 officers and airmen attended Air Force Service Schools during this two year period. Of this number, 328 airmen attended Basic Military Training and 49 airmen attended Basic Military Training with subsequent entry into a technical course.

WASHINGTON STATE GUARD RESERVE

Since activation on 19 May 1960, the Washington State Guard Reserve strength has steadily increased to its present strength of 112 officers. Assigned personnel include former National Guardsmen together with many business and professional people throughout the State.

The mission of the Washington State Guard Reserve is to provide a cadre of officers for use by the State of Washington in time of National or State emergency. In the event of partial or complete Federal Induction of the National Guard, the Washington State Guard Reserve will maintain a sufficient force of State militia for the protection of life and property, preserving order and public safety and taking preventive action against threats of the internal security of the State.

Recent additions to the mission of this organization include a cooperative role with State Civil Defense. Within the capabilities of the Reserve units, the Washington State Guard Reserve will assist Civil Defense in (1) civil disturbances, (2) security of public installations, (3) safeguarding of emergency food and medical supplies and (4) provide professional assistance where required.

All personnel serve the Washington State Guard Reserve without pay. Units drill twice a month at local armories in six communities. The training program consists of instruction in military police work and general military subjects. Twice a year a two-day Command Post Exercise is held at Camp Murray, the headquarters for the organization. Training material is provided through Army, National Guard, and Civil Defense sources.

Organizations and present strengths of units are indicated below:

<u>Unit</u>	<u>Location</u>	<u>Strength</u>
