Phone: (253)512-7000 • FAX: (253) 512-7200*

December 15, 2020

To the Emergency Management Community:

It is my pleasure to introduce the Washington State Emergency Management Division's 2021-2023 multi-year Integrated Preparedness Plan (IPP). This plan represents forecasted preparedness activities for all stakeholders with a vested interest in disaster preparedness.

Each activity is focused on building, sustaining, or reinforcing FEMA Core Capabilities through training that bridges a knowledge gap and exercises that test or validate existing plans.

This plan is developed by training and exercise practitioners in the Washington State Emergency Management Division in partnership with local jurisdictions, tribes, and agencies. The Integrated Preparedness Plan (IPP) is the product of the following four phases in our planning process: Capability Assessments; stakeholder prioritization of Core Capabilities and Planning, Organizing, Equipping, Training and Exercise (POETE) elements; conduct of the annual Integrated Preparedness Planning Workshop (IPPW); and implementation of this plan.

I encourage you to review the state-led forecasts, beginning on page 11, to identify those opportunities that may benefit your jurisdiction or organization. Our Preparedness Section teams of Assessments, Planning, Training and Exercise staff are here to support you.

A handwritten signature in black ink, appearing to read "Robert Ezelle", with a long horizontal flourish extending to the right.

Director

Robert Ezelle

Washington State Military Department
Emergency Management Division

Integrated Preparedness Plan

Record of Changes

Change #	Section Changed	Date	Author	Description of Changes

Vision

A disaster ready and resilient Washington State.

Goal

The goal of this Integrated Preparedness Plan is to ensure maximum stakeholder participation and capability support for identified preparedness gaps.

Purpose

The purpose of this Integrated Preparedness Plan (IPP) is to incorporate the Preparedness Lifecycle through a series of program activities and processes designed to influence Washington State's whole community preparedness.

Scope

The scope of this plan applies to the whole community within the Washington State Emergency Management community. This includes and is not limited to state agencies, tribal communities, and local jurisdictions (counties or cities).

This inclusive IPP is a functional planning document designed to build and sustain capabilities at all levels. Throughout the integrated preparedness planning process, it is critical for all stakeholders at all levels, to be a part of the collection, interpretation, prioritization, build out and delivery of the multi-year Integrated Preparedness Plan.

Authorities

This IPP is predicated on federal, state and local guidance and direction received in the form of laws, regulations, and guidance, and is not limited to the following:

- National Preparedness Framework
<https://www.fema.gov/emergency-managers/national-preparedness/plan>
- Comprehensive Preparedness Guide (CPG) 201: Threat Hazard Identification Risk Analysis (THIRA) / Stakeholder Preparedness Review (SPR)
<https://www.fema.gov/sites/default/files/2020-07/threat-hazard-identification-risk-assessment-stakeholder-preparedness-review-guide.pdf>
- Homeland Security Exercise Evaluation Program (HSEEP)
<https://www.fema.gov/media-library-data/1582669862650-94efb02c8373e28cadf57413ef293ac6/Homeland-Security-Exercise-and-Evaluation-Program-Doctrine-2020-Revision-2-2-25.pdf>
- Revised Code of Washington (RCW) 38.52 Emergency Management
<https://app.leg.wa.gov/rcw/default.aspx?cite=38.52>

Assumptions

This IPP represents the instrumental collaboration of all stakeholders of the natural progression of the six parts of the preparedness system that influence supporting grant requirements:

- Identify and Assessing Risk
- Estimating Capability Requirements
- Building and Sustaining Capabilities
- Planning to Deliver Capabilities
- Validating Capabilities
- Reviewing and Updating

Every stakeholder is encouraged to participate in and afforded the opportunity to participate in the integrated preparedness planning process. It is each state agency, tribal partner and local jurisdictions responsibility to account for their respective SPR gaps to ensure they are meeting the needs of their organizations and communities.

The IPP process strives for maximum support for the five mission areas of Prevention, Protection, Mitigation, Response and Recovery and their respective thirty-two (32) Core Capabilities.

<https://www.fema.gov/emergency-managers/national-preparedness/mission-core-capabilities>

Plan Maintenance

The Washington State Integrated Preparedness Plan, compiled by the Washington State Emergency Management Division (EMD) on behalf of all of its emergency management community stakeholders, is responsible for the development and maintenance of the IPP.

Input is provided by the EMD Preparedness Section Teams of Planning, Training and Exercise and community of: SCIPT (Statewide Catastrophic Planning Team), HLS (Homeland Security Regions), iCOOP (Interagency Continuity of Operations) Committee and SEOC (State Emergency Operations Center) Workgroup throughout the integrated preparedness planning process. The IPP is reviewed by internal and external stakeholders annually prior to promulgation and half way through the state fiscal year (SFY) as a progress check.

Concept of Operations

Capabilities Based Planning – An All-Hazards Approach

The National Preparedness Goal (NPG), released in September 2015, defines preparedness of the whole community for all types of disasters and emergencies. The NPG is, “A secure and resilient nation with the capabilities required across the whole community to prevent, protect

against, mitigate, respond to, and recover from the threats and hazards that pose the greatest risk.”

This includes, and is not limited to:

- Assessment Program,
- State Exercise Program,
- Radiological Emergency Preparedness Program,
- Technological Hazards Program,
- Strategic Planning,
- Continuous Improvement Program (CIP)
- Emergency Management Accreditation Program.

The NPG identifies five Mission Areas (Prevention, Protection, Mitigation, Response and Recovery) and 32 preparedness Core Capabilities (listed on Annex A) intended to assist everyone who has a role in achieving all of the elements in the NPG. Each of these Core Capabilities is tied to a capability target. The capability targets allow for flexibility in determining how stakeholders allocate resources.

Washington State Integrated Preparedness Plan (IPP) methodology organizes and with stakeholder input, prioritizes the five (5) mission areas, 32 core capabilities and five (5) POETE (Planning, Organizing, Equipping, Training and Exercising) elements for each core capability, through the identification of gaps illustrated in the tri-annual THIRA (Threat Hazard Identification Risk Assessment), the annual Stakeholder Preparedness Review (SPR), After Action Reports (AAR) and plan reviews.

Following a stakeholder IPP Workshop, the identified planning, training and exercise activities to fulfill THIRA / SPR and AAR gaps are forecasted in the multi-year Integrated Preparedness Plan. The planning process and methodology for the annual development of the IPP is conducted in three phases:

- Capabilities Assessment
- Prioritization
- Integrated Preparedness Planning Workshop (IPPW)

For further information on the five mission areas and associated core capabilities and how to effectively identify and plan to support gaps, please visit the FEMA Core Capability Development Worksheets at:

<https://www.fema.gov/emergency-managers/national-preparedness/mission-core-capabilities/development-sheets>

Phase I - Capabilities Assessment

The Capabilities Assessment provides a gap analysis, by Mission Area, Core Capability and POETE element, for each capability target identified in the Washington State Threat Hazard Identification and Risk Assessment (THIRA) and Stakeholder Preparedness Review (SPR).

The THIRA / SPR is a six step assessment to be completed at the following intervals:

- THIRA – first three steps are conducted every three years
- SPR – second three steps are conducted annually

The THIRA / SPR process helps communities answer the following questions:

- What threats and hazards can affect our community?
- If they occurred, what impacts would those threats and hazards have on our community?
- Based on those impacts, what capabilities should our community have?

The THIRA helps communities understand their risks and determine the level of capability they need in order to address those risks. The end result of this process lays the foundation for determining a community's capability gaps during the SPR process.

For more information on the THIRA Capabilities Assessment please visit:

<https://www.fema.gov/sites/default/files/2020-04/CPG201Final20180525.pdf>

Phase II – Prioritization

A core capability and POETE prioritization survey is sent out in January each calendar year. The survey follows the annual SPR data input into the Unified Reporting Tool (UFT) which is complete no later than December 31st each calendar year by the WA EMD Assessment Program Manager.

This survey is intended to allow state agencies, tribes, nations, and local jurisdictions (counties or cities) to prioritize their respective core capability and POETE element gaps. Regional coordinators are encouraged to convene with community stakeholders to prioritize and assess gap areas needing improvement or strengths needing sustainment. Stakeholders must ensure primary missions are adequately addressed in the prioritization process. WA EMD can provide additional technical assistance through the prioritization phase.

Prior to the Integrated Preparedness Planning Workshop, WA EMD will collect and aggregate the data into a heat map, illustrating identified commonalities by local jurisdictions, regions, and tribes. These commonalities are then ranked by adding the prioritization numbers. *For instance, each core capability is offered a 1, 2, or 3 prioritization number; therefore, across the 39 counties and 9 HLS regions, WA EMD will add 1 + 2 + 3 + 2, etc. to create a "total" number. This total number then becomes the prioritized core capability number.*

Aggregated data will then be shared and communicated with stakeholders prior to the IPPW to ensure stakeholders are aware of how the next years' planning, training and exercise priorities are focused. This will allow for a more streamlined approach to conversations and planning, training and exercise efforts.

NOTE: All core capability gaps identified will be provided an opportunity to have focused planning, training and exercise activities, not just the prioritized ones.

Phase III – Integrated Preparedness Planning Workshop (IPPW)

The purpose of the annual Washington State Integrated Preparedness Planning Workshop (IPPW) is to develop an Integrated Preparedness Plan (IPP) for Washington State.

Prior to the annual IPPW, state agencies, tribes, nations, and local jurisdictions (counties or cities) are encouraged in Phase II to assess their respective capability gaps and chosen priorities for their region. The intent of the IPPW is to encourage a collaborative review of the aggregated priorities, modify, and/or approve the list and forecast the planning, organizing, equipping, training and exercise activities for the next one-to-three years.

- Year 1: month-to-month POETE elements identified
- Year 2: quarter-to-quarter POETE elements identified
- Year 3: semi-annual POETE elements identified

Using the three-year forecasts, the WA EMD Preparedness Section gathers the aggregated one-to-three year forecast to determine:

- Whether the forecasted T&E activities fulfill the priority gap needs identified through the prioritization of those capabilities?
- What Planning, Training and Exercise activities can be consolidated or collaborated on to eliminate redundancies and efficiently utilize limited funding and resources?

The management of planning, training and exercise programs, stakeholders' input, and oversight provide the methodology to sustain the activities sustained over time.

Phase IV – Integrated Preparedness Plan (IPP)

The annual Washington State Integrated Preparedness Plan (IPP) is a culmination of Phases I through III and is designed as a functional document to provide guided and focused planning, training and exercise efforts over a one-to-three year time frame.

The IPP should be incorporated into agency and organizational strategic planning efforts and reviewed periodically by state agency, tribes, nations, and local jurisdictions (counties or cities) to ensure compliance with planning, training and exercise activities but also inform and adjust priorities as needed.

The goal is to publish the IPP within 90 days of completing the annual IPPW. The IPP is a collaboratively developed plan within the WA EMD Preparedness Section and includes the incorporation of activities from:

- WA EMD Strategic Planning
- Mitigation & Long-Term Recovery Unit
- Response (including Logistics) Unit
- Preparedness (including the Radiological Emergency Preparedness Program) Unit
- State Emergency Operations Center (SEOC)

Annex A – Acronym List

AAR – After Action Report
AHIMT – All-Hazards Incident Management Teams
CAT – Curriculum Adaptation and Training
CEMP - Comprehensive Emergency Management Program
CGS – Columbia Generating Station
CIP – Continuous Improvement Program
COG – Continuity of Government
COOP – Continuity of Operations
CPOD – Community Point of Distribution
CY – Calendar Year
DOE – Department of Energy
EMAP – Emergency Management Accreditation Program
EMD – Emergency Management Division
EMI – Emergency Management Institute
EOC – Emergency Operations Center
ESF – Emergency Support Function
FCA – Food Control Area
FE – Functional Exercise
FEMA – Federal Emergency Management Agency
FNF - Fixed Nuclear Facility
FSE – Full Scale Exercise
FRMAC – Federal Radiological Monitoring Assessment Center
HIVA – Hazard Identification Vulnerability Assessment
HLS – Homeland Security Regions
HSEEP – Homeland Security Exercise Evaluation Program
iCOOP – Interagency Continuity of Operations Team
ICS – Incident Command System
IEMC – Integrated Emergency Management Course
IMT – Incident Management Team
IPP – Integrated Preparedness Plan
IPM – Initial Planning Meeting
IPPW – Integrated Preparedness Planning Workshop
JIC – Joint Information Center
LEP - Limited English Proficiency
PIO – Public Information Officer
POETE – Planning, Organizing, Equipping, Training, Exercising
MEPP – Master Exercise Program Practitioner
MPM – Mid-term Planning Meeting

NETC – National Emergency Training Center
NIMS – National Incident Management System
NPF – National Preparedness Framework
NPG – National Preparedness Goal
RCW – Revised Code of Washington
REP – Radiological Emergency Preparedness
SAR – Search and Rescue
SCIPT – Strategic Catastrophic Incident Planning Team
SEOC – State Emergency Operations Center
SOP – Standard Operating Procedure
SPR – Stakeholder Preparedness Review
THIRA – Threat Hazard Identification Risk Analysis
TTX – Table-Top Exercise
WAC – Washington Administrative Code

Annex B – Core Capabilities

Core Capability Development Sheets

Core capability development sheets to assist with closing core capability gaps can be found on the Washington Emergency Management Divisions Planning webpage.

<https://mil.wa.gov/planning-resources>

Core Capability List

- Planning
- Public Information and Warning
- Operational Coordination
- Forensics and Attribution
- Intelligence and Information Sharing
- Interdiction and Disruption
- Screening, Search and Detection
- Access Control and Verification
- Physical Protective Measures
- Cybersecurity
- Supply Chain Integrity and Security
- Risk Management for Protection Programs and Activities
- Risk and Disaster Resilience Assessment
- Community Resilience
- Long-Term Vulnerability Reduction
- Threats and Hazards Identification
- Environmental Response / Health and Safety
- Critical Transportation
- Situational Assessment
- Fatality Management Services
- Fire Management and Suppression
- Infrastructure Systems
- Logistics and Supply Chain Management
- Mass Care Services
- Mass Search and Rescue
- On-Scene Security, Protection and Law Enforcement
- Operational Communications
- Public Health, Healthcare and Emergency Medical Services
- Health and Social Services
- Economic Recovery
- Natural and Cultural Resources
- Housing

Annex C –Activity by Core Capability

This appendix lists items identified in the 2019 SPR and 2020 IPPW projects.

Identifier	Explanation
	Jurisdiction proposed timelines of activities to address capability gaps.
	Activities with specific timelines defined by local jurisdictions or proposed state coordinated delivery date ranges.
S	Trainings with state coordinated delivery.
V	Courses intended to be offered virtually.
TBD	Training courses subject to scheduling and availability yet to be determined by the training provider and course participants.
*	In-person course delivery with location yet to be determined.

State coordinated delivery are courses where WA EMD is hosting and managing the course. Local jurisdictions are encouraged to host courses to fill capability gaps as needed, provided adherence to guidance in the State Training Program.

<https://mil.wa.gov/training-and-exercise>

When requested by and listed under a single jurisdiction, virtual training offerings will be opened statewide after priority is given to the requesting jurisdiction. General training offerings listed under WA EMD are presented to fulfill the training gaps identified by multiple jurisdictions and will be open statewide. Local jurisdiction needs will still be visible, highlighted in grey, even if covered through general state offerings to demonstrate the needs gap for that jurisdiction.

Course numbers starting with a letter indicate the course delivery type and certificate agency.

- E: Emergency Management Institute (EMI) resident courses held at the National Emergency Training Center (NETC) campus
- G: Washington State delivered field courses
- IS: Independent Study courses
- K: EMI resident courses held via Adobe Connect
- L: EMI resident courses held offsite
- V: EMI resident courses held via Video Teleconference
- Other: Consortium courses offered by other partner agencies
