## Washington State Emergency Operations Officer Monthly Report

*SEOO Activity for the current month*

311	Warning issued to jurisdictions for imminent or occurring emergencies.
273	Warning issued to tribal nations for imminent or occurring emergencies.
1303	Notifications conducted to state and local agencies for imminent or occurring emergencies.
11	Resources coordinated for search, rescue, recovery and response operations.

Participated in 0 exercises of which 0 were spill drills.

*Conducted the following tests:*

<i>Test Conducted (see below for descriptions of each test</i>	<i>Frequency of test</i>	<i>Number of tests completed this month</i>	<i>Total number of stations tested this month</i>	<i>Number of stations responding during tests initiated by the Alert Warning Center</i>	<i>Contact Success rate for those tests initiated by the Alert Warning Center</i>
NAWAS - FEDERAL	Twice daily	62	0	0	0%
NAWAS - STATE	Twice daily	62	1890	1779	94%
STAEN	At least twice per month	1	13	3	23%
CEMNET	At least 3 per week	12	248	120	48%

## Washington State Emergency Operations Officer Monthly Report

<b><i>Test Conducted (see below for descriptions of each test</i></b>	<b><i>Frequency of test</i></b>	<b><i>Number of tests completed this month</i></b>	<b><i>Test Conducted (see below for descriptions of each test</i></b>	<b><i>Frequency of test</i></b>	<b><i>Number of tests completed this month</i></b>
Dedicated phone line test for DOE	At least 1 per week	4	AHAB Siren test	At least 1 per month	1
Dedicated phone line test for CGS	At least 1 per week	4	King County 800 MHz Radio System tests	At least 1 per week	1
AHAB Daily Function status	1 per day	30			

*Test information/definitions:*

- NAWAS: National Warning System Tests (NAWAS) over the State and Federal circuits. NAWAS connects over 1,800 State and Federal jurisdictions and agencies on the Federal circuit and all counties, some agencies and some tribes on the State circuit. There are four tests a day, two state and two federal, testing 66 drops on two circuits. The number above reflects the four tests a day. Previously the number included the total number of stations contacted during those tests.
- DOE tests: Department of Energy Hanford Site has a dedicated phone and fax line into the EOC and they are tested at least weekly. Only the voice phone line numbers are reported here.
- CGS tests: Columbia Generating Station has a dedicated phone and fax line into the EOC and they are tested at least weekly. Only the voice phone line numbers are reported here.
- AHAB: All Hazards Alert Broadcast System is tested daily through the daily function tests, which tests the functional capability of all coastal and Puget Sound siren systems. The voice and tone sirens are tested monthly. The AHAB Siren activates the coastal and Puget Sound voice and tone sirens during tsunami and other hazardous incidents.
- STAEN: The State Agency Emergency Network (STAEN) connects state agency via an 800 MHz radio system.
- CEMNET: Comprehensive Emergency Management Network radio connecting all counties and many cities.
- King County 800 MHz System connects the Alert and Warning Center with King County key emergency management and response organizations.
