

Sasquatch knows that after an earthquake on the coast, a tsunami might be on the way. He needs to use his **tsunami evacuation route** to reach high ground, but the earthquake caused things like trees and powerlines to fall to the ground.

Can you help him find his way safely to high ground?

Ask an adult to walk your **tsunami evacuation route** with you so you all know where to go! Find your route at

dnr.wa.gov/programs-and-services/geology/geologic-hazards/tsunami

Sasquatch loves visiting the beach! In case of tsunamis, he always comes prepared with his **go-bag** and makes sure he knows the closest **tsunami evacuation route**. He also listens for **tsunami sirens**. Do you know what a tsunami siren sounds like? Ask your parents to take you to [mil.wa.gov/tsunami](https://www.mil.wa.gov/tsunami) to find out!
