examine feasible and practical pathways for investor-owned electric and natural gas utilities to contribute their share to greenhouse gas emissions reductions as described in RCW 70A.45.020, and the impacts of energy decarbonization on residential and commercial customers and the electrical and natural gas utilities that serve them.

(b) The examination required in (a) of this subsection must identify and consider:

(i) How natural gas utilities can decarbonize;

(ii) The impacts of increased electrification on the ability of electric utilities to deliver services to current natural gas customers reliably and affordably;

(iii) The ability of electric utilities to procure and deliver electric power to reliably meet that load;

(iv) The impact on regional electric system resource adequacy, and the transmission and distribution infrastructure requirements for such a transition;

(v) The costs and benefits to residential and commercial customers, including environmental, health, and economic benefits;

(vi) Equity considerations and impacts to low-income customers and highly impacted communities; and

(vii) Potential regulatory policy changes to facilitate decarbonization of the services that gas companies provide while ensuring customer rates are fair, just, reasonable, and sufficient.

(c) The commission may require data and analysis from investor-owned natural gas and electric utilities, and consumer owned utilities may submit data to the commission to inform the investigation. The results of the examination must be reported to the appropriate legislative committees by June 1, 2023.
