UW Telephone Support

The University of Washington established a dedicated link to their telephone system and will provide the following services to EMD.

1. 10-digit direct dialing to any UW number on campus, including the Medical Center.
2. 10-digit local dial access to phone numbers in area codes:

206:	Prefixes serving Seattle and surrounding areas.
253:	Prefixes serving Federal Way, Auburn, Kent and surrounding areas.
360:	Prefixes serving the Olympia, Lacey, Tumwater, Shelton, and surrounding areas.
425:	Prefixes serving Bellevue, Kirkland, Redmond, Bothell, Everett, and surrounding areas.

To complete calls to the above, simply dial 9 + area code + 7-digit number. If you are not able to complete a call using this capability, be prepared to use SCAN.

The following information is provided from the UW Telecommunications Manager.

The UW has 10 prefixes in which telephone numbers are assigned. These include 206-221, 206-520, 206-543, 206-598, 206-616, 206-685, 206-897, 253-692, 425-262, and 425-352. Online directory information for individual offices and departmental offices is available on the web at www.washington.edu - click "Directories". We have also established several Seattle telephone numbers that will ring directly to your established DID numbers. This may be used by people in the greater Seattle metro calling area (which includes Kent and eastside areas) to call your facility as a local call.
