UNCLASSIFIED

The logo is a circular seal with a scalloped yellow border. Inside the border, the words "WASHINGTON STATE" are written in a light blue arc at the top, and "FUSION CENTER" is written in a light blue arc at the bottom. Two stars are positioned on the left and right sides of the inner circle. The center of the seal features a bald eagle with its wings spread, perched atop a shield. The shield is divided into four quadrants: the top-left is light blue with a white American flag, the top-right is light green with a smaller seal, the bottom-left is light blue with a white American flag, and the bottom-right is light green with a smaller seal. A banner at the bottom of the shield contains the text "INSEC".
