194th Air Support Operations Squadron 109 Engineer Drive Camp Murray, WA 98430-5025	01 Jul 2025	Until Filled	086413134
POSITION TITLE, GRADE, AFSC:			
Materiel Management, E-6, 2S0X1			
MINIMUM REQUIREMENTS FOR CONSIDERATION:			
<ol style="list-style-type: none"> Rank: Must be a Technical Sergeant (E-6) or promotable Staff Sergeant (E-5) AFSC Required: Must hold or be eligible for award of AFSC 2S071 (Materiel Management Craftsman). Physical Fitness: Must meet current Air Force physical fitness standards with a passing score. Security Clearance: Must possess or be eligible for a current SECRET security clearance. Education: High school diploma or GED required; coursework in math or logistics preferred. Medical/Physical Standards: Must be worldwide qualified and meet deployment medical standards. 			
OTHER REQUIREMENTS:			
<ol style="list-style-type: none"> Eligibility: <ul style="list-style-type: none"> Open to current WA ANG members or those eligible to join the Washington Air National Guard. Cross-trainees may be considered with prior logistics experience and ability to obtain 2S0X1 within 12 months. Attendance & Deployment Obligations: <ul style="list-style-type: none"> Must attend all Unit Training Assemblies (UTAs), annual field training, and remain worldwide deployable. Must support logistics operations during exercises, inspections, and real-world contingencies. Experience Preference: <ul style="list-style-type: none"> Prior experience with ILS-S, MICAP processing, RSP management, or logistics in a combat/combat support unit is highly preferred. Rank Details: <ul style="list-style-type: none"> Must currently hold the grade of E-6 or be promotion-eligible 			
WORKING CONDITIONS:			
<ul style="list-style-type: none"> Operates in both garrison and deployed environments, supporting joint combat operations and contingency logistics. Works in warehouses, supply points, or field environments with exposure to heat, cold, noise, dust, and extended shifts. May deploy alongside Tactical Air Control Party (TACP) units and other combat support elements to manage materiel sustainment under austere conditions. Requires frequent lifting, moving, and operation of material handling equipment (MHE) and motor vehicles. Handles classified, sensitive, hazardous, and pilferable items requiring strict accountability and compliance with regulatory controls. Must maintain proficiency in Integrated Logistics System-Supply (ILS-S), mobility readiness spares packages, and UTC-specific logistics systems. Requires network access and continuous systems training to maintain security and data integrity. Must be capable of supporting short-notice deployments, exercises, and inspections in high-tempo environments. 			
SUMMARY OF DUTIES:			

- Serves as the senior materiel management NCO for the ASOG, providing subject matter expertise across multiple squadrons and detachments on logistics, accountability, and supply chain integrity.
- Executes Staff Assistance Visits (SAVs) and compliance inspections across subordinate units to ensure adherence to AFMAN 23-122, AFH 23-123, DAFIs, and local SOPs.
- Provides mentorship, upgrade training guidance, and task evaluations for 5- and 3-level 2S0X1 personnel. Ensures alignment with the CFETP 2S0XX and unit type code (UTC) training requirements.
- Reviews and validates mobility readiness spares packages (RSPs), mobility bags, bench stock, and shelf-life item programs across assigned units.
- Conducts trend analysis and develops corrective actions for deficiencies in MICAP processing, document control, inventory accuracy, or ILS-S system usage.
- Advises the Group Commander, Director of Staff, and squadron logistics leads on supply system health, readiness shortfalls, and materiel posture for deployment.
- Leads coordination efforts with LRS, Maintenance, and other support functions to resolve equipment and supply issues affecting ASOG readiness.
- Manages or supports logistics training plans, MICT checklists, and prepares units for logistics readiness inspections, ORIs, and MAJCOM-directed evaluations.
- Coordinates logistics support for high-tempo field operations, including joint exercises, deployments, and contingency taskings, ensuring accurate kit-out and sustainment flow.
- Maintains advanced proficiency in ILS-S, CRIS, and Defense Logistics systems, and ensures subordinate units are trained and certified on system access and compliance.
