The 1990 Annual Report was produced by the Public Affairs Office, Military Department, State of Washington. Photo support was provided from the 122d Public Affairs Detachment, Washington Army National Guard.

Publication date is June 1991. Comments and questions should be addressed to the Public Affairs Officer, Camp Murray, Tacoma, Washington 98430-5000. Telephone: 206-581-8481.

Cover photo courtesy of Kit King, *Spokesman Review* photographer. It shows a Washington Air National Guard KC-135E Stratotanker refueling a Royal Saudi Air Force F-15 over northern Saudi Arabia last December.

Message From The Adjutant General

Last year started with a wide-ranging discussion of the future role of our nation's military forces and the funding level which should be authorized. The toppling of the Berlin Wall signaled the end of the Cold War and the beginning of friendlier relations between the U.S. and the Soviet Union. The world seemed a much safer place in which to live.

Then last summer Iraq invaded Kuwait. National Guard units, including some from our state, were called to active duty and sent to Saudi Arabia and other places at home and abroad. A new era of heightened tensions started and America responded with our military's Total Force.

Operation Desert Shield, now Desert Storm, tested the Washington National Guard. The response of our citizen-soldiers demonstrated their preparedness. They are professionals and have come through with flying colors.

We are very proud of them and appreciate the sacrifices they and their families made in defense of liberty and basic human rights. They, more than anyone, know that "freedom is not free."

Our prayer was that our nation's leaders would provide clear guidance and strong support for a just resolution of the Mideast conflict and that our soldiers and airmen and women come home safe to their families as soon as possible. As this report was being written our National Guard soldiers and airmen were returning to their loved ones after a highly successful mission.

Although the Persian Gulf crisis was the focal point of attention during the last half of 1990, the Washington National Guard was simultaneously involved in many other important missions.

When severe storm systems dumped record amounts of rain on Washington late last fall, our Guard men and women were called to duty. They worked around the clock to assist local authorities to evacuate flood victims, operate critical emergency equipment, transport vital supplies, and protect property.

During the last year, the Washington National Guard assisted local authorities with the war on drugs. There is no more important state mission for the Guard than to help educate the public about the dangers of drug abuse and support law enforcement efforts to eradicate drugs from our communities.

With your support, our National Guard will continue to bring a unique value to Washington and the nation by being always ready and always there when needed by the governor or the president.

This publication is intended to help you understand the Guard, our members, missions, and economic importance to the communities we serve. If you have questions, please call our public affairs office at (206) 581-8481.

A handwritten signature in dark ink, appearing to read "Gregory P. Barlow".

Major General Gregory P. Barlow

Washington National Guard

The Washington National Guard was formed by the Militia Act in 1855. Since then it has grown to a force of 10,000 citizen-soldiers.

The Governor is the Commander-in-Chief of the Washington National Guard. However, during times of national emergency, its units are under the command of the President when called to federal active duty.

Military Department

The Washington Military Department is responsible for the command, administration and training of the Washington Army and Air National Guard under the adjutant general, who is appointed by the Governor and confirmed by the state Senate.

Maj. Gen. Gregory P. Barlow is the adjutant general. He assumed command on September 1, 1989. Brig. Gen. Timothy Lowenberg is the assistant adjutant general for the Air National Guard. Brig. Gen. Donald E. Hagglund is the assistant adjutant general for the Army National Guard.

Washington's Guard moves by air, land and sea.

Guardsmen require long hours of field training.

Washington National Guard Missions

Army Guard Missions

1. Federal: To provide combat trained and equipped units to augment the active Army when called by the President.

2. State: To provide trained and equipped units for the protection of life and property and the preservation of peace, order, and public safety under orders of the Governor.

Washington National Guard soldiers operated emergency operations centers (EOC) around the clock to coordinate the Guard's response during the severe western Washington flooding in November, 1990.

Today's Guard units must be ready to roll quickly in times of national need. This Washington Air National Guard KC-135E Stratotanker is on its way to the Persian Gulf to support Operation Desert Shield. KC-135E aircraft refueled Allied planes throughout Operation Desert Storm.

Air Guard Missions

1. Federal: To provide trained and equipped units to augment the active Air Force when called by the President.

2. State: To provide assistance during emergencies, natural disasters and civil disturbances when called by the Governor.

Air Guard

Washington Air Guard has electronics units.

Washington Air Guard crew members fly refueling missions for the Air Force and the Air Guard.

Communications units are assigned to the Washington Air National Guard.

Flying and communications are major assignments of the Washington Air National Guard. The two major commands in the state are the 141st Air Refueling Wing at Fairchild AFB, Spokane, and the 252nd Combat Communications Group at Camp Murray.

The U.S. Air Force gaining command for the 141st Air Refueling Wing is the Strategic Air Command (SAC). The gaining command for the 252nd Combat Communications Group is the Tactical Air Command (TAC) and Air Force Communications Command (AFCC).

The 141st Air Refueling Wing is the gaining headquarters for the 168th Air Refueling Group, Alaska; 190th Air Refueling Group, Kansas; and the 161st Air Refueling Group, Arizona.

Nationally, Air National Guard units provide 20 percent of the Air Force's refueling assets.

The 252nd Combat Communications Group has under its command, communications units in Spokane, Tacoma, Seattle and Bellingham. Also under the group is the 215th Engineering Installation Squadron, Everett; and the 105th Tactical Control Squadron at Four Lakes.

Although the 60-year history of the Air Guard involves the flying part of the organization, it is significant that a large part of the state's Air Guard today has communications, tactical control (radar), and electronics units located in both eastern and western Washington.

Nationally, the Air Guard communications units, like their flying counterparts, also participate in worldwide missions for the active Air Force and actually provide 71 percent of the USAF communications capability.

Army Guard

The Washington Army National Guard is organized under the tables of organization and equipment of the U.S. Army. The majority of its personnel are assigned to deployable combat organizations. Army Guard units are located throughout the state.

The largest force of the Army Guard is the 81st Infantry Brigade (Mechanized), headquartered in Seattle. The brigade has mechanized infantry, armor, artillery, aviation, engineering, combat support, and communications units. The 81st Infantry Brigade (M) has a training affiliation with I Corps at Fort Lewis.

The Army Guard has two other major commands: Troop Command headquartered in Tacoma; and the 66th Aviation Brigade headquartered at North Ft. Lewis.

Troop Command has surface and water transportation units, a military intelligence battalion, a rear area operations support center and a field hospital.

The 66th Aviation Brigade is affiliated with I Corps and has Army National Guard and Army Reserve units in nine states including Washington.

Artillery units are located throughout southwest Washington.

Army Guard armor units training in South Korea.

Infantry training at the Yakima Firing Center, Wash.

1990 Washington National Guard Highlights

Desert Storm.....

Washington Army National Guard

When Iraqi forces invaded Kuwait last August, units of the Washington National Guard were called into action.

The 12-member 1444th Transportation Det. and 153-member 1118th Transportation Co., Washington Army National Guard, both stationed in Tacoma, were alerted for duty as part of Operation Desert Shield.

The 1118th was never activated but the 1444th was called up in August and was airlifted to the Persian Gulf on Sept. 16. Meanwhile, an eight-man contingent from the 116th Support Center (RAO), Camp Murray, left in August for a 90-day tour in the Middle East.

In October, the 241st Transportation Det., Tacoma, was called up and sent to Ft. Lewis to prepare them for duty in Operation Desert Shield. Its 11 members were deployed on Dec. 8 to the Persian Gulf.

On Dec. 6, the entire 116th Support Center was called up for 180 days of active duty. The 80-member unit was deployed in early 1991 to the Mideast.

Washington Air National Guard

Volunteering aircrews from the 141st Air Refueling Wing, Spokane, were part of task forces from across the country who responded within days of the military buildup and were assigned 15-day rotations in the Persian Gulf Region. However, in late December, 200 members were called to active duty and deployed between Christmas and New Years to the Gulf.

Volunteers from the 252d Combat Communications Group were also on active duty supporting Desert Shield.

While no one is certain what 1991 will bring, the Washington National Guard responded well when called to federal duty.

NOTE: As this report went to press, Washington National Guard units who participated in Operation Desert Storm were returning home.

Floods & Fires.....

Early 1990 flooding hits Lewis and Grays Harbor Counties

Last January and February, Lewis and Grays Harbor counties were hit with disastrous flooding. National Guard helicopter pilots flew rescue missions and took local authorities on reconnaissance missions to assess damage and direct relief efforts. Meanwhile, other National Guard men and women rescued people using trucks and all-terrain vehicles.

In total, the Guard used more than 100 mandays at a cost of \$10,000 to respond to the disaster relief.

Pineapple Express paralyzes western Washington

Six western Washington counties were paralyzed over Thanksgiving when warm wet air loaded with water poured into western Washington from the region near Hawaii. Thus, the name "Pineapple Express."

The monsoons dumped up to 5.75 inches of water in a 24-hour period forcing rivers to beyond the 100-year flood stage.

Hundreds of soldiers helped sandbag failing dikes, and evacuated residents of flooded homes using all-terrain Army vehicles.

During the disaster, Guard helicopters flew around the clock. Rescue missions and reconnaissance flights never stopped.

When the waters subsided, the Guard logged nearly 3,000 mandays at a cost of \$250,000.

Finally, Guard soldiers from Olympia were sent to the tiny hamlet of Hidden Valley near Mt. Rainier to help the county sheriff protect against looters.

Forest Fires

While Washington was spared a "bad fire" year in the forests, California asked the Washington National Guard for help. California's Dept. of Natural Resources reimbursed Washington a total of \$20,000 for use of the helicopters.

War on Drugs.....

In fiscal year 1990, the Washington National Guard was an integral part of the War on drugs.

The Washington National Guard received \$930,000 to support local authorities in counter-drug operations.

While air surveillance missions uncovered marijuana plantations in Ferry, Grays Harbor, Okanogan, Skamania and Stevens counties, air reconnaissance missions assisted police departments in Tacoma and Yakima with drug enforcement.

Guard soldiers assisted in the seizure of weapons, vehicles, watercraft and residences. They also helped uncover a blackmarket operation at Sea-Tac airport.

A recap of the activities is listed below.

War on Drugs Summary

Air Reconnaissance Missions:

56	Missions
265	Flying Hours
1,373	Plants Destroyed

Air Surveillance Missions:

137	Missions
359	Flying Hours
118	Drug Loitering Charges
509	Felony Drug Arrests
36	Felony Arrests (not drug related)

Ground Surveillance:

11	Arrests
\$1.2	Million in Drugs Seized
\$542,000	Cash Confiscated
4,800	Containers Inspected at Ports

Military Department, State of Washington

The Military Department supports the Washington Army and Air National Guard, and the Washington State Defense Force.

The state has the responsibility to organize and administer units, recruit and train Guard soldiers and airmen, safeguard federal equipment, and build and maintain Guard facilities.

The federal government provides funds for military salaries, training, and equipment required for federal, active-duty missions.

Federal equipment may also be used during state emergencies, with Department of Defense approval.

People

The Washington National Guard is authorized 10,000 citizen-soldiers. These Army and Air Guard members

serve a minimum of one weekend each month and two weeks annual training. Many soldiers and airmen spend additional time on duty as their civilian jobs allow.

There are approximately 1,300 federally-funded employees for full-time support of Army and Air Guard units. These employees are federal civil service technicians and active-duty Guard soldiers and airmen.

There are also 126 state employees in the department. Most are building trades people. Thirty-nine state employees are partially or totally funded by federal agreement.

Funding

The operating expenses of the Military Department in federal fiscal year 1990 was \$109.5 million.

The state government provided \$4.17 million from the biennium budget for administration, operations and facility support. Federal matching funds added \$3.28 million to the state's operating budget for the department.

The federal government provided \$102 million for Washington Army and Air National Guard units. Seventy-five percent was for salaries and benefits, 18 percent for operating costs and seven percent for construction.

Facilities

The Military Department has 62 installations located in 39 communities across the state. Facilities range in size from less than one acre with one building to 265 acres with 95 buildings. Total real property exceeds 1,300 acres with 292 buildings providing more than 2.4 million square feet of floor space.

* Assigned Strength as of 30 September 1990: Army Guard 6,750; Air Guard 2,504

Community Impact Statement 1990

The community impact statement provides data reflecting the impact of federal funds received by Army and Air National Guard units upon local communities.

The "Current Strength Value" was computed using the authorized strengths as of September 30, 1990 multiplied by the average federal cost per Guardsperson.

The average cost was taken from the Washington National Guard Fiscal Year 1990 Federal Funds Expenditure Report. This report indicates that in 1990 it cost the federal government \$9,840 to support each Army Guard soldier and \$14,232 to support each airman.

These figures are straightline and do not take into consideration the many variables that could occur between different types of units. It also does not take into consideration funds spent from the State of Washington to support armories.

The Guard attracts many talents.

Guard families are your neighbors.

Women in the Guard

Citizen-Soldier

"Washington National Guard soldiers and airmen are your friends and neighbors...

"They serve you, our state and nation around the clock...

"The Guard is helping to rid our streets of drug pushers, to save lives and protect property during flooding and to safeguard freedom around the world...

"Guard men and women know that freedom isn't free...

"The Guard needs your support to make sure it can perform its mission whether it be in peacetime or a time of international crisis..."

Maj. Gen. Gregory P. Barlow
December 1990, Camp Murray, Wash.

Highlights from The Adjutant General's speech to 116th Support Center's men, women and families. The 80-member 116th participated in Operation Desert Storm.

Private Terry Knapp assists a victim of the massive Lewis County flooding in January 1990. (Photo courtesy of Harley Soltes, *Seattle Times*).

Sgt. Mike Marcum helps sandbag dikes on Fir Island last November. (Photo by Spec. Bill Gregerson-Morash).

Capt. Harry Gonzalez, commander of the 1444th Transportation Detachment, boards a C-141 Starlifter last September. His detachment was the first Washington Army National Guard unit to be deployed as part of Operation Desert Shield. (Photo by Spec. Bill Gregerson-Morash.)
